Item 2.05. Costs Associated with Exit or Disposal Activities

On June 28, 2013, Quantum Corporation (the "Company") approved a plan to further consolidate manufacturing activities with its contract manufacturer, Benchmark Electronics, that includes the termination of employees currently supporting these activities. The Company expects to complete the majority of these termination actions by the end of the fourth quarter of fiscal year 2014. The costs associated with the manufacturing consolidation primarily consist of one-time termination benefits and facility exit costs. The Company's preliminary estimate of these costs is approximately \$13 million to \$16 million for severance, benefits and remaining lease payments, depending on when it exits various buildings. Substantially all of these charges will result in future cash expenditures.

This Current Report on Form 8-K contains forward-looking statements, including, but not limited to, statements regarding the expected costs related to the announced actions. These forward looking statements are only predictions based on current information and expectations and are subject to certain risks and uncertainties, including, but not limited to, Quantum's ability to successfully implement the workforce reductions and facility exits as expected, possible changes in the size and components of the expected costs, and general economic conditions. More information about potential factors that could affect Quantum's business and financial results is included in the "Risk Factors" set forth in the periodic reports Quantum files with the Securities and Exchange Commission from time to time, including Quantum's Annual Report on Form 10-K for the fiscal year ended March 31, 2013 filed with the Securities and Exchange Commission on June 7, 2013. Actual results could differ materially from those set forth in the forward-looking statements as a result of such risk factors, as well as other risks and uncertainties. Quantum assumes no obligation to, and does not currently intend to, update these forward-looking statements.
